

Ceremony for opening the door to human divinity

—The dawning of a new era

Program to be held at your home

Time: 11:00-13:00 Japan time

Please do it at a time that is convenient for you.

1. Prayer for world peace

Pray in Japanese and English (or only in English). Use of the *Tôitsu* tape (CD) is optional.

Commentary by Yuka Sensei

First, we will pray the world peace prayer. In praying the world peace prayer, we become one with our own guardian spirits, and through the prayer, we receive the light of the Great Light of World Deliverance. When you pray the world peace prayer this time, I would like you to be conscious of the way you are in your daily life. Envision in your mind your past that is being replayed, like an old-style tape recorder. Observe what is holding you back, and notice the perception of "self" that you have now. And please be aware that it is not the ego-self that is dissolving these matters, but that the divine self—the sacred self—is doing it.

2. Declare the seven *kotodama* words

Declare the seven *kotodama* words. You may recite them aloud, or silently in your heart.

Please click on the link below to see the seven *kotodama* words.

<https://byakko.org/wp-content/uploads/2023/09/SevenKotodama.pdf>

(Some of the English wording has been changed since this event.)

3. Pray for all of Japan and each continent of the world, and form the Divine Spark *IN*

Pray for all of Japan and each continent of the world, and form the Divine Spark *IN*. The whole of Japan is divided into seven districts, and we pray for peace in each prefecture.

When you have finished praying for each district, please form the Divine Spark *IN* for that district, keeping your divine self in mind. Please be aware that the *IN* you have formed has become light and has been sent to the people of that area, to great nature, and to the tectonic plate(s) that exist beneath the land and the sea.

After we pray for all of Japan, each continent of the world is prayed for as well.

Commentary by Yuka Sensei

Through the world peace prayer and the declaration of the seven *kotodama* words which were done in 1 and 2, you become aware that you, the divine self, send the vibration and light of the world peace prayer throughout the world, and form the Divine Spark *IN*. With this awareness, we will first divide Japan into seven districts and pray for each district. After forming the *IN* once per district, we become aware that our *IN* has become light and has been sent to the people of the area, to great nature, and to the tectonic plate(s). All seven districts will be prayed for in this manner. After we have prayed for all of Japan, we pray for the six continents of the world. For each continent, we read out the name of the country or recite it in our heart, praying for peace and sending light to all the countries and regions of each continent. Then we form the Divine Spark *IN* for each continent, and after forming the *IN*, we are aware that our *IN* has become light and has been sent to the people, great nature, and tectonic plate(s) of that region. Finally, we pray for all other regions.

Prayers throughout Japan

(1) We pray as follows with an awareness of the people of each district, great nature, and the tectonic plate(s).

"May peace be in ○○."

Please put the name of the prefecture in order in ○○ and pray. You may pray aloud or silently.

(2) With the awareness that you, the divine self, are sending the light, form the Divine Spark *IN* once toward the ○○ district. After forming the *IN*, be aware that the *IN* has become light and has been sent to the people of the area, to great nature, and to the tectonic plate(s).

Please see the following links for the names of the regions and prefectures throughout Japan and how to pray.

<https://byakko.org/wp-content/uploads/2023/05/PrefecturesByRegions.pdf>

Prayer for peace in each country of the world

(1) Pray for each continent

While being aware of the people, great nature, and tectonic plate(s) of each continent, recite the following one time.

"May peace be in ○○."

(2) Pray for peace in each country of the continent.

You are free to pray in any way you wish, such as reading out "May peace be in ○○" while looking at the name of the country, or praying in your heart.

Please click on the link below to see the country names in each continent.

<https://byakko.org/wp-content/uploads/2023/10/Country-names-in-each-continent.pdf>

(3) With the awareness that "I, the divine self, am sending the light," form the Divine Spark *IN* toward each continent. After forming the *IN*, be aware that the *IN* has become light and has been sent to the people of that region, to great nature, and to the tectonic plate(s).

Pray for each continent, and at the end, pray for all other regions. Please be conscious that all living beings in the countries on the various tectonic plate(s) awaken to divinity and harmony. Then we recite the following once:

"May peace be in all the other regions of the world."

(4) Form the Divine Spark *IN* for all the other regions of the world, with the awareness that "I, the divine self, am sending the light." After the *IN* is formed, be aware that the *IN* has been sent as light to the people of all the other regions, to great nature, and to the tectonic plate(s).

4. imprint the consciousness of " Divinity First" within you.

Read the following commentary by Yuka Sensei and have a quiet time to let "Divinity First" be engraved within you. The length of time is at your discretion.

Commentary by Yuka Sensei

We will firmly engrave within ourselves the sense of "Divinity First" that we have felt through this ceremony. Then, we will be fully assured that our divinity-first self is pulling and guiding all our other selves, that is to say, the selves that are manifested in various forms, and we will be grateful for that. Then, we feel within ourselves the sense of praying from the energy of our own Great Source and creating a future from it. Even if it seems as if you cannot feel anything, let yourself believe that the feeling of having done this ceremony earnestly is your divinity-first self.

This concludes the program of the "Ceremony for opening the door to human divinity—The dawning of a new era."

Thank you very much for your participation.
